

FOR THE GLASS INDUSTRY

DRIVEN BY INNOVATION

FOR THE **GLASS INDUSTRY** –
*DRIVEN BY **INNOVATION***

WALTEC IS YOUR **STRATEGIC SUPPLIER** AND
PARTNER TO THE GLASS INDUSTRY

We are the leading manufacturer of fully automated and electronically controlled production lines and this from feeder up to annealing lehr.

Over time we have been successfully migrating our state of the art pressing, blowing, spinning, handling and fire polishing solutions into more than 250 manufacturing locations around the globe.

Transforming Hot End operations through improved resource efficiency and reduced energy consumption is our key challenge. Our team of experts is there to help you to make this happen.

Let us take your business to the next level and build together manufacturing processes contributing to a better industry footprint.

*„We are creators of **innovative glass manufacturing technology**,
we design **sustainable production processes**,
we build **cost effective production lines** and components
targeting the **optimization of your hot end process**.“*

*Dipl. Ing. (FH) Britta Höfer (owner and managing director)
together with WALTEC's management team*

PROVIDING **OPTIMIZED SOLUTIONS** FOR YOUR **SUSTAINABLE GLASS PRODUCTION**

At **WALTEC** we practice the highest standards of health and safety and migrate this into our products and services. We recognize fully our responsibility towards our employees and society and we act accordingly.

We believe that good and long term relationships do make the difference, we treat each other and all our business partners with respect and care.

We feel responsible for our products, our people, the ongoing and exciting innovation path, our nature and your process and success!

OUR **VALUES** –

RELIABLE BY **TRADITION**

Our company offers continuous learning and improvement, ongoing apprenticeship and continuous education is part of our company philosophy. We offer young people the chance to develop and improve themselves through an integrated, practical on the job training concept.

We believe that only motivated and skilled employees are capable of delivering top performance to our customers. Our decisions are guided by the principle that we should empower our people so that they can transfer our world class technology knowledge into solutions that help our friends in the glass industry to cope with today's complex challenges.

Our family tradition and heritage safeguards these values across the globe and that's why we are proudly saying: ***"reliable by tradition"***.

TAILOR MADE SOLUTIONS –

INCREASE YOUR **EFFICIENCY**

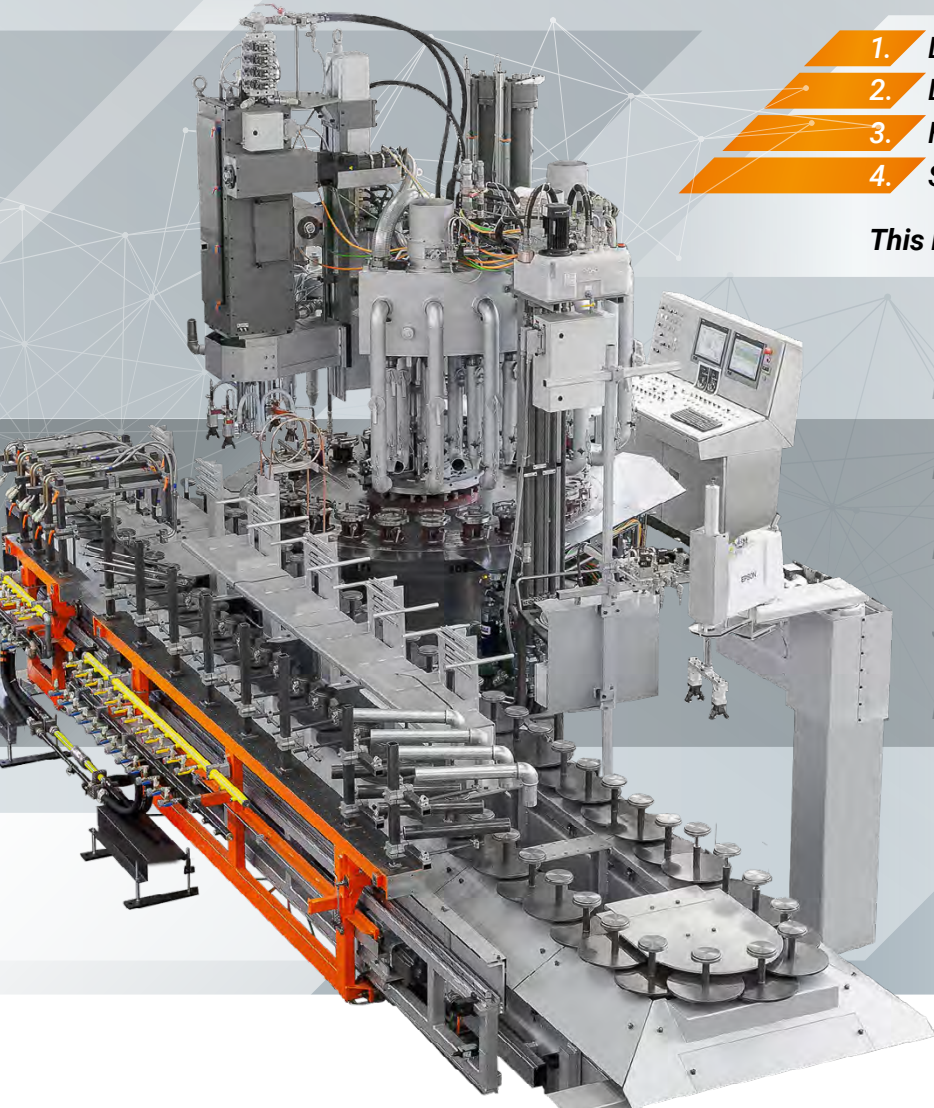

We are the most innovative company in process optimization for the glassware industry. **WALTEC** guarantees successful on-site installation and seamless migration into existing production platforms.

Our experts will help you create a better hot end forming process empowered by the latest available machine and process technology:

1. Less energy
2. Less cost
3. Higher output and
4. Sustainability inside!

This is our promise!

PROCESS DESIGN AND **MACHINE DEVELOPMENT**

We create and build new technology solutions. Every inquiry is unique and will always be handled by a multidisciplinary project team of **WALTEC** specialists. Contemporary software solutions analyzing and optimizing data and efficiency are accompanied by self-engineered artificial intelligence. We deliver tailor-made processes and machine designs to comply with Industry 4.0 standards and even beyond.

AFTER-SALES-SERVICE AND **PRODUCTIVITY SUPPORT**

Once in operation, our service is always at your side to help. Increasing output, reducing cost, or ensuring continuity of operations and minimal downtimes: our after-sales team supports your process 24/7. Additional on-line troubleshooting, as well as direct communication with our experts, is highly appreciated by all of our customers. **WALTEC** safeguards spare parts availability and ensures supply reliability through its network of certified suppliers. A continuous flow of new and innovative components to drive productivity improvements and to upgrade older machine configurations forms the backbone of this service.

QUALITY THROUGH IN-HOUSE MANUFACTURING

All activities, from design to manufacturing, up to customer delivery and the start of operations, are executed by our qualified team of specialists. **WALTEC** offers a one-stop customer approach. The risk of any third-party failure is eliminated and the highest quality and true customer satisfaction are guaranteed.

Each of our innovations is driven by the demands of the global glass industry: Our customers tell us their story!

COMMISSIONING AND START-UP SERVICE

Our experienced engineers and fitters install the production lines at the desired customer location. A smooth and fast launch of operations is ensured by commissioning and start-up hand in hand. A full on-site operator training program comes as part of the deal. **WALTEC** also offers a fully remote-controlled commissioning service.
